

"Knows the System Inside and Out" - M.A.G.

"When a Judge refers to your attorney as the "world famous Mat Tully," you know you have the right lawyer on your side. Mr. Tully has won several cases for me, with one being a landmark decision, and I watched as he took on the US Department of State, the US Department of Justice and wowed the entire Merit System Protection Board. When you have a case involving military, employment law or USERRA, you must call Mathew Tully first. Mr. Tully is a military officer, former civilian federal employee and a columnist, so he knows the system inside and out. He will explain the strengths and weaknesses of your case and then provide a clear, unambiguous direction and strategy. He is a no nonsense lawyer and will not accept any money from you unless he feels he can truly win." - M.A.G. on founding partner Mathew B. Tully
